

Assignment 10

Overview

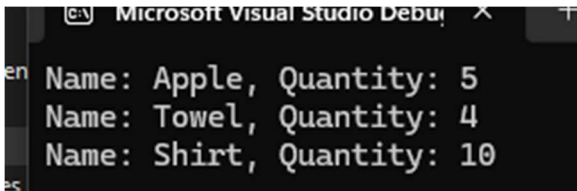

1. This program can create items with name and quantity

```
Item item1("Apple", 5);  
Item item2("Towel", 4);  
Item item3("Shirt", 10);
```

2. It can then display these items

```
item1.display();  
item2.display();  
item3.display();
```

3. This is the program running

The screenshot shows the Microsoft Visual Studio Debug Console window. The output text is as follows:

```
Name: Apple, Quantity: 5  
Name: Towel, Quantity: 4  
Name: Shirt, Quantity: 10
```
